

Dr. Seuss' *Cat in the Hat* Teacher Resources and Lessons

- <http://teachers.net/lessonplans/posts/1571.html>

Contains a good amount of ideas for activities connected to *The Cat in the Hat*. The website contains activities for pre-reading, during reading, and post-reading. Also has activities related to sight words.

- <http://www.seussville.com/Educators/educatorClassroomResources.php?id=printables&pdfbook=The%20Cat%20in%20The%20Hat#1>

Activities recommended for pre K-1st Grade. Has a lot of fun printables and classroom activities for younger students. Most of the activities are *Cat in the Hat* related, but a few can be used as part of a bigger Dr. Seuss unit.

- <http://www.scholastic.com/teachers/lesson-plan/one-fish-two-fish-pattern-headbands-0>

An activity that helps teach patterns by using *One Fish, Two Fish, Red Fish, Blue Fish*. Students make headbands using sentence strips and different colored fish and order the fish in a pattern based on their color. A great addition to a Dr. Seuss unit that is both fun and educational.

- <http://www.scholastic.com/teachers/sites/default/files/asset/file/seuss2.pdf>

An in-class activity to help students identify letters and how to use those letters to spell words. While it may look like a standard language arts lesson, the inclusion of references to *The Cat in the Hat* helps to engage and entertain students while they are learning.

- http://www.seussville.com/activities/AllAboutSeuss_BOYONFAIRFIELDSTREET_0.pdf

A short biography on Dr. Seuss that is followed by a few ideas for activities that teachers can use to help students learn more about Dr. Seuss. A good supplement to any Dr. Seuss unit.

- <http://www.education.com/lesson-plan/cat-in-the-hat-responsibility/>

A lesson plan that uses the characters and story of *The Cat in the Hat* to teach students about responsibility. A great way to help students realize that stories can not only be entertaining but also be informative and teach a valuable lesson.

- <http://rainydaymum.co.uk/cat-in-the-hat-number-lines-and-sequence-hats>

A fun math lesson that teaches students about number sequencing. Students use numbered red and white strips and arrange them to make the Cat's hat while ordering the strips in numerical order based on even numbers, odd numbers, multiples of 5, or any other ordering system that the students and teacher can come up with. A very cool and fun way to teach number sequencing using Dr. Seuss.
